

## Allergens – Ingredients – Nutritional Information

At 48 Flavours we believe in the nutritional principals of balance, variety and moderation and that eating 48 Flavours gelato can fit into a healthy lifestyle. Our goal is to have a flavour option for everyone and to provide you with the information to make informed decisions about our range. We offer dairy and dairy-free gelato along with sorbets. Our gelato is handmade daily with a focus on quality using the freshest South Australian produce.

This nutrition and ingredient information is based on standard product formulations and average kilojoules per 100 grams per product type. Actual values may vary from those listed due to individual preparation and variations may also occur depending on the supplier, origin of product and the season of the year. Further, product formulations may change periodically.

We do our best not to cross contaminate our gelato, however allergens may be present in all our products and contain traces of gluten and other allergens such as egg, soy, peanuts, tree nuts, sesame, and milk.

Our Food Safety Program has processes to reduce and control potential cross contamination of known allergens, but we cannot guarantee that our products do not contain traces of allergens as we operate in an artisan environment from a central kitchen.

**No gelato is sold as allergen free.**

If you would like further information or have food sensitivities or dietary concerns regarding specific ingredients used in specific products, please contact us at [info@48flavours.com.au](mailto:info@48flavours.com.au)

Thank you.
